

Field Application Engineer UT Region Europe & Middle East (100%)

We are the trendsetter in NDT and growing rapidly. To make inspections faster and easier than ever before we are using wireless sensors, cloud, artificial intelligence and augmented reality. We have recently launched a super innovative UT product and are looking for people who can support our customers with real expert knowledge.

Tasks / Responsibilities

Delivering customer wow

- Support Account Managers and distribution partners to deliver deep technical expertise and consultancy to customers.
- Support customers to get the best out of their instruments
- Preparing and executing “scientific” talks about practical applications
- Supporting Exhibitions as “The Expert”

Delivering customer training

- Develop customer training /onboarding concepts and materials
- Execute trainings for customers

Ensuring the **right level of expertise** with our Account Manager and Distribution partners

- Design and execute theoretic and practical training courses
- Design and execute knowledge and skill tests
- Develop and execute specific training concepts for product launches

Ensuring that the **knowledge within the company is growing steadily**

- Pro-active knowledge exchange with peers in other regions
- Provide relevant input for application oriented content to product marketing
- Input relevant application know-how to Product Management
- Give input to product concepts from application point of view to maximise product success
- Maintain and update “knowledge data base”
- Keep relationship with renowned experts in the field to learn, understand trends

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection. Want to join the #EagleTeam?
