

# Cloud DevOps Engineer

As a Cloud DevOps Engineer, you will run and support the company's software application infrastructure in the cloud, ensuring the optimized use of resources to scale.

## What will you do

- Configure and setup Cloud infrastructure.
- Monitor and improve workload in the Cloud.
- Setup, monitor and support CI/CD pipeline on premise or in the Cloud.
- Participate in technical architecture and design of software solutions.
- Ensure the security of the workload running in the Cloud.

## What do we expect

### Basic Qualification

- At least 3 years of experience creating and managing AWS infrastructure and services.
- At least 3 years of experience managing Unix/Linux environments.
- Extensive experience in scripting in languages such as Python/Ruby/Perl and shell scripting.
- Extensive experience in managing infrastructure as code using CloudFormation and Terraform.
- Familiar with source control systems such as Git.
- Experience setup, run and support CI/CD pipeline.
- Good knowledge of microservices architecture, container technologies (Docker, Kubernetes).

### Preferred Qualifications

- Able to troubleshoot infrastructure issues in Cloud, identify root cause and implementation improvement and fixes.
- Good people skills, teamwork, collaboration with cross-function and cross-geo teams.
- Self-motivated, willing to learn new technologies continuously.
- Strong understanding of Agile development process.
- Knowledge on mobile and web applications development.
- Knowledge of big data and data analytics infrastructure in Cloud.

## About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore and Malaga technology hub and a global mindset looking to lead a digital revolution in inspection.
