

## Sr. 3D designer, VFX

Based in Malaga office, and as part of the Global Brand Marketing team, you will have a key role on creating appealing product renderings and animations to enhance our brand marketing content and product portfolio.

### What will you do

- Create 3D photorealistic product renders and animations for marketing purposes, including texturing, shading and lighting
- Collaborate with the Technology and Product management teams in the improvement of product CAD files and get a great understanding of the product portfolio and environment, to bringing to life quality, performance and innovation
- Ensure consistency and quality across a large volume of brand and product assets

- High efficiency in Substance Designer / Painter
- Strong Adobe Photoshop skills
- AutoCAD / solidworks skills are a plus
- Photography experience is a plus
- A creative thinker, efficient problem solver seeking actively for information and solutions
- Ability to accept constructive feedback
- Versatility and always up to date on trends and new technology, keen eye for memorable
- Team player, can-do and push-boundaries attitude, with strong sense of ownership and responsibility of your output
- Used to work in a growth environment and handle several projects at the same time, managing time prioritization effectively

### What do we expect

- 7+ years of experience working freelance / agency or in-house teams developing 3D product rendering and VFX animations, preferable for industrial products – portfolio is MANDATORY to be considered in the recruiting process
- English fluency and cultural awareness– able to collaborate and communicate positively and efficiently with global technical and non-technical teams
- Exceptional project management skills and solid attention to detail
- Strong sense of composition, lighting, scale, and proportion
- Strong knowledge of 3D software ( 3DS Max, Maya, Blender)
- Strong rendering skills with high efficiency in engines such V-Ray, Arnold, Redshift
- Strong knowledge of PBR Workflow

### About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore and Malaga technology hub and a global mindset looking to lead a digital revolution in inspection.
