

UX/UI Designer

In this role, you will be a critical team member and responsible for defining the user experience of our products. Based in Malaga, you will work closely with product managers, software engineers and other UX/UI designers in an internationally distributed team set up. One of your first projects will be a state-of-the-art web platform of a software that was traditionally handled on PC.

What will you do

- Work with product manager, development team, domain specialists and UX designers in an internationally distributed team setup to define and implement designs;
- Develop, refine and translate user requirements into sketches, wireframes, mock-ups, interaction flows and pixel-perfect designs;
- Perform user research and usability testing to refine user needs or requirements;
- Create simple and elegant solutions for complex tasks;
- Present concepts, designs, research feedbacks to senior stakeholders and team members;
- Assist other team members in product innovation.

- Being committed to interdisciplinary collaboration and problem solving;
- Proficient in design tools such as Sketch, InVision and/or Principle;
- Effective time management skills;
- Excellent communication, presentation and interpersonal skills;
- Keen interest in emerging technologies;
- Fluent in English.

What do we expect

- BA/BS degree in Design, Human-Computer Interaction (HCI), other relevant disciplines or 6 years of equivalent practical experience;
- Experience in designing for web applications;
- Broad experience in user centered design process, especially with iterative design and delivery;
- Experience in working with senior stakeholders and/or clients;

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore and Spanish technology hubs and a global mindset looking to lead a digital revolution in inspection.
