

Road Marking Skid Resistance **Proceq SRT 5800**

Portable Skid Resistance Tester

Accuracy

The Pendulum Test Value (PTV) appears automatically on the OLED digital display, eliminating the possibility of parallax error.

Efficiency

The digital display provides helpful prompts to simplify and accelerate the test procedure.

Ease of Use

Intuitive, easy-to-use design. All historical data is stored for future recall, and personalize software and reports to include your organization's name, colours and logo.

Processing Unit / Sensor

Display	Digital option available on Pro versions
Weight	28 kg (61.7 lbs)

SWISS  MADE

Present in +100 countries, we serve inspectors and engineers all over the world with the most comprehensive range of InspectionTech solutions, combining intuitive software and Swiss-manufactured sensors.
