proceq
A Screening Eagle Company

Automatic film applicators

ZAA2600 Scratch Resistance

Linear abrasion tester for scratch and mar resistance tests

User experience

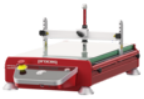
The easy-to-use touchscreen with multi-language menu guidance saves you time in the laboratory and streamlines the entire testing process

Reliability

Store various application profile settings such as application length and drawing speed for operator-independent, reliable, and reproducible results

Versatility

With its modular construction and compact design, it saves space and can be equipped for scrub, crocking and heat related tests



Instrument
Tech Specs

Display	Touchscreen 5.7" colour TFT (LCD), LED backlight, VGA resolution
Drawing speed	1 - 500 mm/s (0.04 - 19.69”/s), stepless adjustability
Resolution	Resolution: 1 mm/s (0.04”/s)

SWISS MADE

Present in +100 countries, we serve inspectors and engineers all over the world with the most comprehensive range of InspectionTech solutions, combining intuitive software and Swiss-manufactured sensors.
